

358 DIFFERENT TRAINS CABINET

By Matthew Hilton

Different Trains was named after Steve Reich's contemporary composition of the same name. The sliding movement of the compact laminate doors on the cabinet facade have a visual rhythm that recalls the movement of sounds in the composition.

Long planks of solid hardwood create a cabinet with an open form, while the sliding doors articulating the facade partially conceal the cabinet contents, engaging play between positive and negative space.

Available in two widths and one, two or three tiers, various configurations are possible. The wide/single tier version particularly lends itself to use as an A/V unit, while the taller units function well as room dividers.

MATERIALS

TIMBER

Black walnut, white oak, or ash with a choice of a clear Danish oil, white oil, or black oil finish. White oak additionally available oxidised; ash additionally available stained or painted in a choice of 10 colours: black, white, bone, ochre, bordeaux, forest, fjord, bay, lagoon, or cove.

METAL

Matte black painted steel legs.

COMPACT LAMINATE

Compact laminate doors in black or a set of three shades of grey.

NOTES

The 240cm / 94 1/2" wide cabinet comes with six sliding doors per shelf, consisting of two of each door size, placed along one side of the cabinet only. The 120cm / 47 1/4" wide unit comes with three doors per shelf, consisting of one of each door size, placed along one side of the cabinet only. These doors can be easily removed and reattached on the other side of the cabinet and/or on any tier if preferred. Further sliding doors may be purchased separately. The doors are available in black or as a set of three shades of grey, with the same colour on the front side and back side. They do not have an exact colour reference, however as a guideline, the closest RAL codes are: Black doors, RAL 9011; Grey doors: Light Grey RAL 7035, Medium Grey RAL 7042 and Dark Grey RAL 7012. We do not guarantee an exact match with these RAL codes.
