177 ORION TABLE

By Anthony Guerrée

Orion, named after the most recognisable constellation in the night sky, artfully explores the concept of repetition with a central leg made from a series of overlapping solid wood slats forming either a full oval shape or a semi-oval met by a smooth curve of brass or copper. Expressing contemporary artistry, this table has a sculptural form imbued with the warmth of solid wood, bringing interest and a generous gathering place to any dining room.
